

Job Grade and Salary Review Summary – Alexander Lisak

Employee: Alexander Lisak
Department: IT – DevOps
Location: TotalEnergies UK
Date: 12 December 2025

1. Employment Overview

Period	Role / Title	Grade	Key Responsibilities	Annual Salary
2019–2020	<i>Ecommerce Engineer</i> (equivalent to DevOps Engineer)	C	CI/CD pipeline support, automation, infrastructure monitoring	£30,000
2020–2023	<i>Release Coordinator</i>	C	Release coordination (spreadsheets), applying data patches, no DevOps duties	£31,500 → £34,500 (inflation only)
2023–Present	<i>DevOps Technician</i>	C	Full DevOps responsibilities: build & release automation, infrastructure management, production support	£34,500

2. Key Facts

- Joined TotalEnergies in **2019**, with **Grade C** despite role equivalence to *NP-10 DevOps Engineer*.
- Spent **three years (2020–2023)** in a low-skill coordination role following a managerial reassignment; no progression or training opportunities.
- Returned to DevOps in **2023**, now with **three years of hands-on DevOps experience** and **nine years total IT experience**.
- Current performance feedback from manager (Prakash) is **positive**, indicating work quality at or above peer level.
- Internal comparator (*DevOps Engineer – NP-10*) role advertised and filled at **£50,000–£55,000**, while my current salary remains **£34,500**.

3. Market Comparison

Position	Experience Level	Typical UK Salary (2024)	Sources	
Junior DevOps Engineer	1–2 years	£35,000 – £40,000	Glassdoor, Reed	
Mid-level DevOps Engineer	3–5 years	£45,000 – £55,000	Totaljobs, Indeed	
Senior DevOps Engineer	5+ years	£55,000 – £70,000	Glassdoor
